*Two additional trainings
will be offered in other
regions later in the year

Building Capacity to Work with Diverse Populations

If you provide services in Missouri's Adult Head Injury programs, **this training is for you.**

- Explore TBI issues relating to race and ethnicity
- Understand regional trends in population growth
- Examine cultural and ethnic disparities in services
- Learn strategies to respond to needs of diverse populations
- Identify resources to help your organization develop an action plan

Trainer: **Derrick Willis, MPA**

Derrick Willis is a Research Associate at the University of Missouri-Kansas City Institute for Human Development. In 2000 Derrick led the Missouri Department of Mental Health's statewide cultural competency movement. Since then he has worked with governmental agencies including the Missouri Department of Health and Senior Services, the Bureau of Special Health Care Needs, and Georgetown's National Center for Cultural Competency. He is currently working on several cultural research projects. Derrick is the Vice-Chair of the Association of University Centers on Disabilities and a member of several councils working to improve the delivery of services to diverse populations.
